

REPUBLIC OF NIGER

Fraternity - Work - Progress

ECONOMIC AND SOCIAL DEVELOPMENT PLAN (ESDP) 2017-2021

A RESURGENT NIGER FOR A PROSPEROUS PEOPLE

PRIORITY ACTION PLAN

TRANSLATED AND PRINTED WITH THE SUPPORT

SEPTEMBER 2017

The Action Plan (AP) consists of a group of programs organized in a hierarchical order, both ascending (with links to sectoral strategies) and descending (manifested in actions and activities). Its purpose is to precisely define how the strategic sectoral choices made will be implemented over the short and long run. It evaluates ESDP implementation costs based on the needs expressed by all actors.

Within this framework, all ministries and institutions developed their respective APs with a team composed of senior ministerial and institutional policy makers (General Secretariats, Directors of Research and Programming, Directors of Statistics, and some technical directors). These ministerial and institutional APs were then consolidated by a sub-committee, and by a sectoral committee, in accordance with the various ESDP priorities.

On this basis, ESDP implementation costs have been estimated at FCFA 19,819 billion.

However, this set of voluntary programs is difficult to implement due to a number of factors, including, in particular, absorption capacity, budgetary constraints, and administrative capacity to deliver quality services.

The consideration of these factors requires prioritizing needs expressed therein and prioritizing actions and sector programs, which should limit the risk of failure in their implementation. The prioritized actions and programs will be organized in a set of programs called Priority Action Program (PAP).

The PAP is established on the basis of the

followings: (i) prioritized actions at the ministerial and institutional level; (ii) prioritized actions at the sectoral level; (iii) funding capacities as a function of the basic macro-economic framework; and (iv) project maturity (ongoing or not). It translates the government's priorities for implementing its development policy during the plan's implementation.

Prioritization also considered the following criteria : (i) alignment to strategic national documents (the Niger 2035 SDIGS, the Renaissance Program Act-2, and international commitments); (ii) the level of progress of the action; (iii) availability of funding; and (iv) the action's capacity to influence social and economic change in the short term, to reduce poverty and create jobs. The development of the PAP required the assessing of all financing conventions signed in order to identify the available resources that remain undisbursed in the ESDP's implementation period. Project by project, this assessment identified the total amounts provided, the disbursed amounts, and those remaining to be disbursed.

In addition, the public PAP based on the ambitions of the Renaissance Program amounts to 5,319.022 billion CFA francs or 8,108 billion euros.

The distribution of the expenditures related to the reforms and projects in the PAP based on the ambitions of the Renaissance Program Act 2, is presented as follows by axis.

Axis 1 **CULTURAL RENAISSANCE**

Total implementation cost for Priority 1 (0.48% of total PAP cost) is estimated at FCFA 21,750 billion. The breakdown of this cost by program is as follows :

Program 1 :

FCFA 13.443 billion or 20 million Euros for social mobilizing, targeting behavioral change and entirely financed from own resources.

Program 2 :

FCFA 8.31 billion or 13 million Euros for strengthening democratic and republican civil culture, financed entirely from own resources.

ECONOMIC AND SOCIAL DEVELOPMENT
PLAN (ESDP) 2017-2021

Axis 5 SUSTAINABLE ENVIRONMENTAL MANAGEMENT

The implementation cost of this priority requires financing in the amount of FCFA 266.2 billion, including 94.76 billion already in place. This represents 5% of total PAP expenditure. The cost for this axis is broken down by program as follows :

Program 10 :

Sustainable management of forest resources, water and biodiversity. Total cost: FCFA 37.418 billion, including 4.31 billion already available.

The table below shows the costs of the major priorities actions (AMP), the funding acquired by sources and the annual programming.

This represents 0.7% of the PAP and 14.1% of the axis.

Program 11 :

Improvement of the living environment of populations and climate change. Total cost of FCFA 228.8 billion, including 90.45 billion already acquired. This represents 4.3% of the PAP and 86% of the axis.

Axis 2 SOCIAL DEVELOPMENT AND DEMOGRAPHIC TRANSITION

Implementing this priority requires FCFA 1,709.44 billion (€ 2606 million) in funding, of which 864.32 billion from pooled financial sources. This priority corresponds to 32.1% of total PAP expenditure. Funding is broken down per program as follows :

Program 3 :

FCFA 1,530.7 billion for human capital development, including 769.73 billion already in place. The program corresponds to 89.66% of this priority and 28.8% of the total PAP amount.

Program 4 :

FCFA 178.8 billion for demographic transition, including 94.59 billion already in place. This corresponds to 10.5% of this axis and 3.4% of the total PAP amount.

The table below shows the costs of the major priorities actions (AMP), the funding acquired by sources and the annual programming.

AXIS 4 **IMPROVING GOVERNANCE, PEACE, AND SECURITY**

The total implementation cost of this axis is estimated at FCFA 640.4 billion. Funding already available amounts to FCFA 390.442 billion. This corresponds to 12.0% of the PAP. Expenditures are broken down by program as follows:

Program 8 :

Strengthening the Efficiency and Transparency of Institutions. Total cost: FCFA 106.3 billion, including 43.44 billion already acquired. This represents 16.6% of the axis and 2.0% of the PAP.

Program 9 :

Strengthening Security and Peace. Total cost: FCFA 534.1 billion, including 347.0 billion mainly from internal resources. This represents 83.4% of the axis and 10% of the PAP.

The table below shows the costs of the major priorities actions (AMP), the funding acquired by sources and the annual programming.

Axis 3 ACCELERATING ECONOMIC GROWTH

The total cost of implementing of this axis is estimated at FCFA 2280 billion, corresponding to EUR 4807 million or 52.61% of the public PAP, of which 1437.73 billion FCFA already in place. The cost of this priority is broken down by program as follows :

Program 5 :

Private Sector Development. Total cost: FCFA 949.5 billion (€ 1447 million), including 666.76 billion already in place. This corresponds to 35.40% of this priority and 17.8% of the PAP.

The table below shows the costs of the major priorities actions (AMP), the funding acquired by sources and the annual programming.

Program 6 :

Food Security and Sustainable Agricultural Development. Total cost: FCFA 1,638.8 billion (€ 2,498 million), including 731.642 billion already in place. This corresponds to 61.1% of this priority and 30.8% of the PAP.

Program 7 :

Improving Development Management. Total cost: FCFA 92.19 billion (€ 142 million), including 39.315 billion already in place. This corresponds to 3.51% of the PAP and 5% of this axis.
